PROFESSIONAL
EXPERIENCE

BookMart – Online Bookstore (Next.js & Tailwind CSS)
2024 – 2025

- Designed and developed modern, responsive, and SEO-optimized websites using Next.js & Tailwind CSS.
- Created BookMart, an online bookstore with secure payments, search functionality, and user-friendly dashboards.
- Built a news-blog platform, integrating fetch API to display real-time dynamic content.
- Developed React Native mobile applications, ensuring cross-platform compatibility and smooth UI.
- Worked on web scraping automation for data extraction and analysis (excluding Amazon & Flipkart).

PROJECTS

BookMart – Online Bookstore (Next.js & Tailwind CSS)

- Created an online book marketplace where users can buy and sell books.
- Integrated secure payment gateways and optimized for SEO & performance.

News-Blog Website (Next.js & Tailwind CSS)

- Developed a news and blog platform with categories, user-friendly UI, and responsive design.
- Used fetch API to pull and display dynamic news articles.

Portfolio Website Template (Next.js, Tailwind, AI Chatbot)

- Designed a portfolio template for developers & freelancers, featuring modern UI/UX.
- Integrated an AI chatbot and showcased projects & skills dynamically.
